

Poppy Seed Cake

From Dorothy Wittenberg, a relative on Liz's side. It isn't "from scratch" in the least, but boy! is it good.

ingredients...

1 pkg Duncan Hines Lemon
Supreme Cake Mix
1 small pkg Jello instant lemon
pudding mix.
½ c poppy seeds (2½ oz)
4 large eggs
½ c vegetable oil
1 c hot tap water

directions...

Put all ingredients in a large mixer bowl. Beat for 5 minutes.
Pour batter into a well-greased Bundt pan or use a spring-form pan.
Bake at 350°F for 50-55 minutes.
This is fabulous all by itself, but is even better with a lemon-sugar glaze.
